## Jokes

A woman went to her doctor's office, where she was seen by a new doctor. After a few minutes in the exam room she burst out, screaming as she ran down the hall.

An older doctor stopped her and asked what the problem was, and she told him her story. After listening, he had her sit down and told her to go relax in another room.

The older doctor marched down the hallway to the back where the first doctor was and demanded, "what's the matter with you? Mrs. Terry is 81 years old, she has four grown children and nine grandchildren, and you told her she was pregnant?"

The new doctor continued to write on her clipboard and without looking up and said, yet but does she still have the hiccups?"
